

Premier Consulting Solutions

Accelerating your performance

Traditionally, hospitals have separated strategic initiatives, business imperatives and points of responsibilities into three categories: financial, operational and clinical. However, today's rapidly changing healthcare environment requires a focus on the intersection of these three areas to drive rapid performance improvement. Premier understands the value of an integrated, data-driven approach and offers the expertise to deliver guaranteed results.

Engaging all parties, from physicians to materials management, Premier consultants ensure that all stakeholder identified issues and opportunities are worked into an overall plan that fits the specific needs of individual healthcare facilities and systems. Combine this with the data advantage of millions of patient records and comparative benchmarks from more than 450 hospitals plus the expertise of the industry leader in pay-for-performance, and Premier Consulting Solutions is your answer.

Premier Consulting Solutions, supported by more than 100 subject matter experts and vast data repositories, provides healthcare facilities and systems guidance and improvements in:

- Organizational transformation
- Supply chain transformation
- Service line solutions
- Patient throughput
- Clinical and regulatory areas
- Facilities and capital
- Revenue cycle
