

SHIFTCONNECT™ CORE CALENDARING

Many organizations are exploring ways to improve process efficiency in open shift management, as well as their core scheduling practices. The process of solving core scheduling needs can be quite cumbersome regardless of whether organizations are manually scheduling or using an automated tool. Generally, setting the core schedule can be very labor intensive, inefficient, and continuous for the organization.

The ShiftConnect Solution

FEATURES

- Real time visibility to open shift needs
- Highly customizable Unit-Based Calendaring
- 4 or 6 week calendars
- Unit totals with coverage requirements
- Customizable shift abbreviations
- Employee totals
- OT Notification
- On-Call calendaring
- Full-text comments on any day for any employee
- Daily Staffing Sheets
- Multiple Printing Options

BENEFITS

- **Seamless Shift Calendaring**
The core calendar is interfaced directly to Concerro without ever leaving ShiftConnect. There is no need to launch a separate browser window. The calendars are sent to Concerro, and Awarded Shifts are sent back to ShiftConnect with a few mouse clicks.
- **Time Savings**
ShiftConnect decreases the time spent posting open shifts in Concerro, as well as updating the core calendar with Awarded Shifts. It is also easy to set up and use.
- **Schedule Visibility**
ShiftConnect functionality shows work time, non-duty time, and on-call.
- **Customize your own schedule**
ShiftConnect provides the freedom to customize the shift calendar based on individual unit needs, time tables, and shift names.
