

## PVC-DEHP Free Product List

### Summary of items under Premier contract

*December, 2007*

This list is a summary of PVC-DEHP-free products under contract for those products/procedures that FDA has identified as posing the highest risk of exposure to DEHP (FDA July 12, 2002). Detailed information on products in each category is provided in accompanying downloadable files. Premier's electronic catalog, [Supply Chain Advisor](#) (formerly eSourcing), should be consulted to verify DEHP-PVC content for the individual products in each contract. Vendors may also be contacted for complete product information.

Information in Supply Chain Advisor (SCA) regarding PVC-DEHP content for individual products on the contracts listed below may be found in the product descriptions or in product cross-reference files included in the “Attachments” or “News” sections. Attachments and news can be found by:

- 1) Searching on the contract number in SCA catalog;
- 2) When contract is located, click on the contract number link
- 3) View the “attachments” or “news” to review the files.

Vendor	Product category	Contract number	PVC-DEHP Free
