

INsights

Liberate your data and simplify your analytics journey.

INsights is a new analytics solution that provides a radically simplified data structure, placed in a high-performance analytics environment to deliver ease and velocity for business intelligence. Get from opportunity assessment to action quickly without the burden of learning a proprietary coding language.

Liberate Your Data

Unlock and integrate outcomes and clinical data to answer all kinds of questions. Utilize prebuilt templates or create your own queries and visualizations.

Radically Simplified

We've taken the complexity out of the data. Clean, standardized and mapped data is simplified into nomenclature that's easy to understand to drive analytics.

Centralized Analytics Environment

Everyone in your organization needs to answer different questions. With INsights, house all your analytics content in one high-performance environment to prevent duplication of efforts.

With INsights, data is simplified and available to you quickly and all in one place. **The benefit?** We are using industry leading tools to eliminate the need to learn proprietary tools or language.

INsights enables you to:

- + Use your existing business intelligence tool or our Tableau to visualize content.
- + Integrate data from various sources.
- + Upload external data to create or add a dataset.
- + Return complex queries in moments.
- + Access our curated content or build from scratch.

Unlock the ability to make data-backed business decisions with INsights. Adapt, flex and optimize analytics to your specific needs with the integration of additional data to provide a clearer picture of performance. Enjoy the benefits of a radically simplified data structure and a high-performance analytics environment that does not require a proprietary language.

Get speed to intelligence – business analytics are available on day one by making your existing data more powerful!
