

CognitiveRx®

Optimize Pharmacy Decisions

Comprehensive Pharmaceutical Supply Chain Solution

Introducing CognitiveRx®

Delivering Actionable and Predictive Insights You Need to Thrive in this Demanding Environment

Using integrated artificial intelligence and machine learning, CognitiveRx predicts, manages and solves for challenges related to drug shortages, inflation, declining reimbursement and other factors impacting daily pharmacy operations.

Synthesizing the Information You Need

Premier is uniquely positioned in the pharmacy industry with data from our thousands of members, suppliers and partners. Using advanced analytics and data science, CognitiveRx can aggregate disparate data into meaningful solutions to today's challenges.

Member-Specific Data

Locations, wholesaler purchases, inventory, formulary, payers, fee schedules

Global 3rd Party Data

Wolters Kluwer, ASHP, CMS coding, FDA, clinical equivalents, historical pricing, patents

Artificial Intelligence and Machine Learning

Price increases, drug shortages

Uncover Value

- + Monitor reimbursement to help improve margin capture.
- + Insulate your inventory with predictive analytics before the next price increase.
- + Calculate and track cost savings initiatives.

Enable Preparedness

- + Predict market signals for early shortage detection and management.
- + Adjust therapies to viable alternatives before drug delays occur.
- + Plan and communicate medication strategies in advance with all caregivers.

Generate Efficiency

- + Increase staff productivity and engagement by eliminating duplicative work.
- + Arm your Pharmacy team with intelligence and confident recommendations.
- + Speed up, simplify and support the clinical review process.
