

Quality Improvement Made Simple and Sustainable

Empower your team with the Quality Enterprise solution for comprehensive clinical quality improvement. Today, 1,300 hospitals secure their edge through Premier.¹ A single solution that helps solve your quality needs, Quality Enterprise includes quality analytics and benchmarking, regulatory reporting, clinician performance management and quality ratings tracking. Help accelerate your improvement to answer data-driven insights through ONE feed of information and unlimited access through a centralized platform.

Identify opportunities for improvement and engage in a meaningful way.

- + Quality Enterprise helps you analyze and improve on key performance measures including readmissions, complications, mortality, hospital-acquired conditions (HACs), length of stay, cost per case, resource utilization, practice variation and more.
- + Quality Enterprise also helps you gain insights into all clinical populations, such as sepsis, stroke, congestive heart failure (CHF), pneumonia, and specialty populations like COVID-19 and Perinatal and helps enable real change in resource utilization and outcomes.

Concurrent risk-adjustment and benchmarking in Quality Enterprise enables:

- + Measured performance against standard and custom peer groups.
- + Informed data-driven quality and cost decisions.

Partnership Beyond Implementation

Meeting your team where you are, your Premier relationship includes a dedicated support structure available to you from implementation, training and continued customer support*.

Premier's Government Advocacy team represents membership and keeps programming informed with the most current information in Washington, D.C. Engaging webinars and education are valued resources for those dedicated to improvement.

*In response to competitive pressures, members seek **relevant** and **comparative** data for performance improvement and are looking for smart ways to allocate resources.*

Empower your team with insights to make your organization a top performer.

Key factors for helping to empower your organization and how Quality Enterprise helps account for those factors

Benchmark Against Peers with Data You Can Trust*

How many hospitals are available for comparison?

- 1,300 hospitals of all sizes²
- Flexible peer groups; create a custom group or choose from over 100 defined groups including top performance by outcomes and diagnosis.

How is Premier's benchmarking different?

- Benchmarking capabilities are possible because of current participating hospital level data, not publicly reported or packaged historical data.
- Data is tailored to your needs and peer groups can be built specifically for your organization.

How is cost and financial information used?

- Charge codes are mapped to the most detailed standardized charge master.
- Cost accounting systems/teams are maximized using true procedural cost data showing the fixed, variable and total cost per item or service.

Is the data validated to identify variances between coding and charges to ensure accuracy?

- Yes, data audits, financial reconciliation, patient number reconciliations and clinical validation of data are standard.

Can I manage regulatory requirements?

- Abstract and report for Centers for Medicare & Medicaid Services (CMS), Inpatient Quality Reporting (IQR), Outpatient Quality Reporting (OQR), Inpatient Psychiatric and all The Joint Commission (TJC), Inpatient, Outpatient and Hospital-Based Inpatient Psychiatric Services (HBIPS) plus TJC Stroke Certification Program
- Gain access to national standards such as CMS planned versus unplanned readmission algorithm and PSI-90 reporting.

Maintain Your Edge in Quality*

Can we share data across the organization?

- There are no limits on the number of users and access to the interactive dashboards, drillable capabilities and benchmarking.
- No need to recreate assets; once built, they may be shared.
- A single sign-on is used for a seamless user experience.
- Maintain confidentiality using HIPAA standards, yet allow customized peer groups without a need for data sharing agreements.

Does reporting require add-ons or additional processes?

- On-demand and executive level reporting is available.
- Both configured and custom reports are available as part of Quality Enterprise.

What's different about Premier?

- A relationship with Premier provides opportunities beyond the technology solution, including a commitment to continuous quality improvement.
- Opportunities for improvement collaboratives are available with the nation's healthcare leaders.
- Complimentary access to Premier's Breakthroughs Conference to gain best practices and network with high performing healthcare organizations.
- Access to member online communities to interact with peers and gain insights.

Trusted Partnership*

Is support available after onboarding?

- Premier's relationship extends beyond the sales and onboarding process with a dedicated account team.
- Customer Success is your dedicated account management team committed to your satisfaction.
- Dedicated training teams guide members through onboarding and continue to engage as technology and solutions evolve.
- Monthly education is available on today's most pertinent topics.
- Data Operations support members with data submission frequency options and focus on accuracy; this team also maps every charge code so hospitals and health systems can conduct clinical care variation benchmark with confidence.
- Government Advocacy guides regulatory components to meet standards and represents Premier's membership in Washington, D.C.
- Continued support from Premier's Solution Center is always available to answer your questions at: solutioncenter@premierinc.com or [877.777.1552](tel:877.777.1552).
