Drugs is a nationwide generic pharmaceutical distributor with an established record of unshakable account management.

Example 2: Offer of millions of masks from abroad.

Hi there,

I have access to 3 million units of 3M n95 masks available from Amsterdam. If you are in need, please call or email. Just to clarify need, you have facilities with less than a two week supply.

Thank you,

Example 3: Invoking legitimate manufacturers.

Dear

We are importers in the USA and understand the urgency and need for facial masks. While we were not pursuing this business a number of suppliers that we work with have been reaching out to us. One of our trusted partners in China is producing the KN95 facial mask. Each sealed individually and packed 50 per inner, 600 to a master carton. PO's placed within the next 24-48 hours in lots of 150k pieces can be scheduled for delivery starting April 3rd. Terms are FOB NY/CA \$4.78 per piece with 40 percent deposit and balance due on delivery. In case you are not familiar the N95 and KN95 mask follow a very similar testing protocol and function very similarly. You can review the 3M January 2020 technical bulletin for more details.

Please let us know if interested or if you require additional information.

Regards

Gary
